Glendon Borough, Northampton County Annex

Hazard Mitigation Plan Points-of-Contact

Primary:

Theresa Sidor Secretary 24 Franklin Street, Glendon, PA 18042 610-253-1577 glendonboro@rcn.com

Alternate:

Ronald Roscioli Councilman 24 Franklin Street, Glendon, PA 18042 610-253-1577 glendonboro@rcn.com

Municipal Profile

Glendon Borough is located in the southeastern part of Northampton County. It encompasses an area of approximately 0.6 square miles, and has a population of 440 (2010 Census). The borough is bordered by Williams Township to the south and east, Easton to the north, West Easton to the northwest, and Palmer Township and Wilson Borough to the west.

The Lehigh River forms the borough's western edge, separating it from West Easton and Palmer Township.

Interstate 78 passes through the middle of the borough, but does not have an interchange within the borough's borders. Island Park Road and Main Street follow the Lehigh River along the western edge of the borough. Berger Road enters the borough in the southeast corner, serves as the eastern border for slightly less than half of the borough, and then travels west to the intersection of Island Park Road and Main Street.

Municipal Participation

1. Identify municipal stakeholders to be involved in the planning process such as, floodplain administrator, public works, emergency management, engineers, planners, etc., and include their specific role in the process.

Mindy McAlisten, Mayor

Role: Coordinator

Donald Young, Council President

Role: Help coordinate

Ronald Roscioli, Councilman

Role: Help coordinate

Louie Thomas. Councilwoman

Role:

Terry Sidor, Secretary

Role: Help coordinate

Cindy Green

Role: Help coordinate

Barry Isett, Engineer

Role:

Municipal Participation – continued

2. Identify community stakeholders such as; neighborhood groups, religious groups, major employers / businesses, etc., that will be informed and / or involved in the planning process and describe how they will be involved.

ProcessFlo Email
Ward Trucking Neighborhood Watch
Dhollandia Channel 69 News

3. Describe how the public **will be engaged** in the current planning process examples, newsletters, social media, etc., **and how they were engaged** since the 2013 Hazard Mitigation Plan.

Newsletters Social media See Question 2

Compliance with the National Flood Insurance Program (NFIP)

Topic Topic	Identify source of information, if different from the one listed.	Additional Comments	
1. Staff Resources			
Is the Community Floodplain Administrator (FPA) or NFIP Coordinator certified?	Community FPA	No	
Is floodplain management an auxiliary function?	Community FPA	Yes	
Provide an explanation of NFIP administration services (e.g., permit review, GGIS, education or outreach, inspections, engineering capability)	Community FPA	Permit review – 3 rd party, zoning officer	
What are the barriers to running an effective NFIP program in the community, if any?	Community FPA	Population less than 400	
2. Compliance History			
Is the community in good standing with the NFIP?	State NFIP Coordinator, FEMA NFIP Specialist, or community records	Yes	
Are there any outstanding compliance issues (i.e., current violations)?		No	
When was the most recent Community Assistance Visits (CAV) or Community Assistance Contact (CAC)?		?	
Is a CAV or CAC scheduled or needed?		No, No	
3. Regulation			
When did the community enter the NFIP?	NFIP Community Status Book		
Are the Flood Insurance Rate Maps (FIRMs) digital or paper? How are residents assisted with mapping?	Community FPA	Paper	
Do floodplain regulations meet or exceed FEMA or State minimum requirements? If so, in what ways?	Community FPA	Yes	
Describe the permitting process	Community FPA, State, FEMA NFIP	Our zoning officer, etc.	

Compliance with the National Flood Insurance Program (NFIP) - continued

Topic	Identify source of information, if different from the one listed.	Additional Comments
4. Insurance Summary		
How many NFIP policies are in the community? What is the total premium and coverage?	State NFIP Coordinator or FEMA NFIP Specialist	
How many claims have been paid in the community? What is the total amount of paid claims? How many substantial damage claims have there been?	FEMA NFIP or Insurance Specialist	Several around Front and 2 nd Streets
How many structures are exposed to flood risk within the community?	Community FPA or GIS Analyst	around Front and 2 nd Streets
Describe any areas of flood risk with limited NFIP policy coverage	Community FPA or FEMA Insurance Specialist	
5. Community Rating System (CRS)		
Does the community participate in CRS?	Community FPA, State, or FEMA NFIP	No, according to http://lvpc.org/haxmit.html, only Hanover Twp. does.
If so, what is the community's CRS Class Ranking?	Flood Insurance Manual (http://www.fema.gov/floodinsurancemanual.gov)	None
What categories & activities provide CRS points & how can the Class be improved?		None
Does the plan include CRS planning requirements?	Community FPA, FEMA CRS Coordinator, or ISO representative	No

Community Assets

Community assets are defined to include anything that is important to the character as well as the function of a community, and can be described in four categories, they are; people, economy, natural environment and built environment. Please identify the community assets and location under each category.

1. People

 Concentrations of vulnerable populations such as the elderly, physically or mentally disabled, non-English speaking, and the medically or chemically dependent.

No concentrations

 Types of visiting populations where large numbers of people are concentrated such as visitors for special events and students.

None

Community Assets - continued

2. Economy

Major employers, primary economic sectors such as agriculture and commercial centers where losses would have a severe impact on the community.

None

3. Natural Environment

Those areas / features that can provide protective functions that reduce the magnitude of hazard events such as, wetlands or riparian areas, and other environmental features important to protect.

None

4. Built Environment

• Existing structures such as, concentrations of buildings that may be more vulnerable to hazards based on location, age, construction type and / or condition of use.

Areas around Front and 2nd Streets

 Infrastructure systems such as water and wastewater facilities, power utilities, transportation systems, communication systems, energy pipelines and storage.

Sewage pump station

 High potential loss facilities such as, dams, locations that house hazardous materials, military and / or civilian defense installations.

None

 Critical facilities such as, hospitals, medical facilities, police and fires stations, emergency operations centers, shelters, schools and airports / heliports.

None

Cultural / historical resources such as, museums, parks, stadiums, etc.

None

Remnants of Hurricane Ida	DR-4618-PA	Assistance to eligible individuals and families affected by this disaster.					

2013 Municipal Action Plan Status

				,			
Existing Mitigation Action (from 2013 Hazard Mitigation Plan)	No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	Additional Comments	
Retrofit structures located in hazard-prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for retrofitting based on cost-effectiveness versus relocation. Phase 2: Where retrofitting is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability.	X					Same as 2013 Plan - no change	
Purchase, or relocate structures located in hazard- prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for relocation based on cost-effectiveness versus retrofitting. Phase 2: Where relocation is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability.	X					Same as 2013 Plan - no change	
Maintain compliance with and good-standing in the NFIP including adoption and enforcement of floodplain management requirements (e.g. regulating all new and substantially improved construction in Special Hazard Flood Areas), floodplain identification and mapping, and flood insurance outreach to the community. Further, continue to meet and/or exceed the minimum NFIP standards and criteria through the following NFIP- related continued compliance actions identified below.	Х					Same as 2013 Plan - no change	

2013 Municipal Action Plan Status – continued

					,			
	Existing Mitigation Action (from 2013 Hazard Mitigation Plan)	No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	Additional Comments	
4	Conduct and facilitate community and public education and outreach for residents and businesses to include, but not be limited to, the following to promote and effect natural hazard risk reduction: Provide and maintain links to the HMP website, and regularly post notices on the County/municipal homepage(s) referencing the HMP webpages. Prepare and distribute informational letters to flood vulnerable property owners and neighborhood associations, explaining the availability of mitigation grant funding to mitigate their properties, and instructing them on how they can learn more and implement mitigation. Use email notification systems and newsletters to better educate the public on flood insurance, the availability of mitigation grant funding, and personal natural hazard risk reduction measures. Work with neighborhood associations, civic and business groups to disseminate information on flood insurance and the availability of mitigation grant funding.	X					Same as 2013 Plan - no change	
5	Begin the process to adopt higher regulatory standards to manage flood risk (i.e. increased freeboard, cumulative substantial damage/improvements) and sinkhole risk (e.g. carbonate bedrock standards).	X					Same as 2013 Plan - no change	
6	Determine if a Community Assistance Visit (CAV) or Community Assistance Contact (CAC) is needed, and schedule if needed.	X					Same as 2013 Plan - no change	
7	Have designated NFIP Floodplain Administrator (FPA) become a Certified Floodplain Manager through the ASFPM, and pursue relevant continuing education training such as FEMA Benefit-Cost Analysis.	X					Same as 2013 Plan - no change	
8	Participate in the Community Rating System (CRS) to further manage flood risk and reduce flood insurance premiums for NFIP policyholders. This shall start with the submission to FEMA-DHS of a Letter of Intent to join CRS, followed by the completion and submission of an application to the program once the community's current compliance with the NFIP is established.	X					Same as 2013 Plan - no change	
9	Archive elevation certificates	Χ					Same as 2013 Plan - no change	
10	Continue to support the implementation, monitoring, maintenance, and updating of this Plan, as defined in Section 7.0	X					Same as 2013 Plan - no change	
11	Complete the ongoing updates of the Comprehensive Emergency Management Plans	Χ					Same as 2013 Plan - no change	

2013 Municipal Action Plan Status - continued

					Status	•			
Existing Mitigation Action (from 2013 Hazard Mitigation Plan)		No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	Additional Comments		
	12	Create/enhance/ maintain mutual aid agreements with neighboring communities for continuity of operations.	X					Same as 2013 Plan - no change	
	13	Identify and develop agreements with entities that can provide support with FEMA/PEMA paperwork after disasters; qualified damage assessment personnel – Improve post-disaster capabilities – damage assessment; FEMA/PEMA paperwork compilation, submissions, record-keeping	X					Same as 2013 Plan - no change	
	14	Work with regional agencies (i.e. County and PEMA) to help develop damage assessment capabilities at the local level through such things as training programs, certification of qualified individuals (e.g. code officials, floodplain managers, engineers).	X					Same as 2013 Plan - no change	

Notes:

- 1. Actions not carried through to the 2018 Action Plan are so noted.
- 2. To maintain National Flood Insurance Program (NFIP) compliance, actions related to the NFIP were carried through to the 2018 Action Plan even if identified by the municipality as completed.

2018 Mitigation Action Plan

	Mitigation Action	Mitigation Technique Category	Hazard(s) Addressed	Priority (H / M / L)	Estimated Cost	Potential Funding	Lead Agency / Department	Implementation Schedule	Applies to New and / or Existing Structures
	Retrofit structures located in hazard- prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Notes:

Estimated Costs:

- Where actual project costs have been reasonable estimated: Low = < \$10,000; Medium = \$10,000 to \$100,000; High = > \$100,000;
- Where actual project costs cannot reasonably be established at this time:

Low = Possible to fund under existing budget. Project is part of, or can be part of an existing on-going program.

Medium = Could budget for under existing work plan, but would require a reapportionment of the budget or a budget amendment, or the cost of the project would have to be spread over multiple years.

High = Would require an increase in revenue via an alternative source (i.e., bonds, grants, fee increases) to implement. Existing funding levels are not adequate to cover the costs of the proposed project.

Potential Funding (FEMA HMA):

- BRIC = Building Resilient Infrastructure and Communities
- **FMA** = Flood Mitigation Assistance Grant Program
- **HMGP** = Hazard Mitigation Grant Program
- **HSGP** = Homeland Security Grant Program
- **EMPG** = Emergency Management Performance Grant

Implementation Schedule:

- **Short Term** = 1 to 5 years
- **Long Term** = 5 years or greater
- **DOF** = Depending on Funding

Applies to New and/or Existing Structures:

- **N/A** = Not Applicable
