West Easton Borough, Northampton County Annex

Hazard Mitigation Plan Points-of-Contact

Primary:

Peter Mammana Councilman 220 10th Street, West Easton, PA 18042 610-252-1387 coolrunnings@ptd.net

Alternate:

Dan DePaul Mayor 302 9th Street, West Easton, PA 18042 610-905-3739 dcd409@aol.com

Municipal Profile

West Easton Borough is located in the southeastern part of Northampton County. It encompasses an area of approximately 0.3 square miles, and has a population of 1,257 (2010 Census). The borough is bordered by Easton to the east, and is otherwise surrounded by Wilson Borough.

The Lehigh River forms the borough's eastern border with Easton and Glendon Borough. There are no other waterways or bodies of water of significance in the borough.

West Easton Borough consists of a network of small roads. Lehigh Drive follows the Lehigh River along the borough's eastern edge.

Municipal Participation

1. Identify municipal stakeholders to be involved in the planning process such as, floodplain administrator, public works, emergency management, engineers, planners, etc., and include their specific role in the process.

Dan DePaul, Council President / Mayor
Role:

Bill Concolino, Emergency Management Coordinator
Role:

Bill Bogari, Jr., Fire Chief
Role:

Barry Isett & Associates, Engineer / Code
Role:

Joan Heebner, Secretary / Manager
Role:

2. Identify community stakeholders such as; neighborhood groups, religious groups, major employers / businesses, etc., that will be informed and / or involved in the planning process and describe how they will be involved.

Municipal Participation – continued

3. Describe how the public **will be engaged** in the current planning process examples, newsletters, social media, etc., **and how they were engaged** since the 2013 Hazard Mitigation Plan.

|---|---|---------------------|
| 4. Insurance Summary | | |
| How many NFIP policies are in the community? What is the total premium and coverage? | State NFIP Coordinator or FEMA NFIP Specialist | |
| How many claims have been paid in the community? What is the total amount of paid claims? How many substantial damage claims have there been? | FEMA NFIP or Insurance Specialist | |
| How many structures are exposed to flood risk within the community? | Community FPA or GIS Analyst | |
| Describe any areas of flood risk with limited NFIP policy coverage | Community FPA or FEMA Insurance Specialist | |
| 5. Community Rating System (CRS) | | |
| Does the community participate in CRS? | Community FPA, State, or FEMA NFIP | No |
| If so, what is the community's CRS Class Ranking? | Flood Insurance Manual (http://www.fema.gov/floodinsurancemanual.gov) | |
| What categories and activities provide CRS points and how can the Class be improved? | | |
| Does the plan include CRS planning requirements? | Community FPA, FEMA CRS Coordinator, or ISO representative | |

Community Assets

Community assets are defined to include anything that is important to the character as well as the function of a community, and can be described in four categories, they are; people, economy, natural environment and built environment. Please identify the community assets and location under each category.

1. People

• Concentrations of vulnerable populations such as the elderly, physically or mentally disabled, non-English speaking, and the medically or chemically dependent.

DUI Center (Rehabilitation Center – Northampton County)

 Types of visiting populations where large numbers of people are concentrated such as visitors for special events and students.

N/A

Community Assets - continued

2. Economy

Major employers, primary economic sectors such as agriculture and commercial centers where losses would have a severe impact on the community.

Adamson Street businesses

3. Natural Environment

Those areas / features that can provide protective functions that reduce the magnitude of hazard events such as, wetlands or riparian areas, and other environmental features important to protect.

4. Built Environment

- Existing structures such as, concentrations of buildings that may be more vulnerable to hazards based on location, age, construction type and / or condition of use.
- Infrastructure systems such as water and wastewater facilities, power utilities, transportation systems, communication systems, energy pipelines and storage.
- High potential loss facilities such as, dams, locations that house hazardous materials, military and / or civilian defense installations.
- Critical facilities such as, hospitals, medical facilities, police and fires stations, emergency operations centers, shelters, schools and airports / heliports.
- Cultural / historical resources such as, museums, parks, stadiums, etc.

2013 Municipal Action Plan Status

| | | | Status | | | |
|---|--------------------------|-------------|------------|-----------|--------------|---|
| Existing Mitigation Action (from 2013 Hazard Mitigation Plan) | No Progress / Unknown | In Progress | Continuous | Completed | Discontinued | Additional Comments |
| Retrofit structures located in hazard-prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for retrofitting based on cost-effectiveness versus relocation. Phase 2: Where retrofitting is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability. | | | X | | | One business retrofitted by raising above the floodplain. |
| Purchase, or relocate structures located in hazard- prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for relocation based on cost-effectiveness versus retrofitting. Phase 2: Where relocation is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability. | | | | | X | 13 residences have 25 – foot setback from the road. Action carried over to the 2018 Action Plan. |
| Maintain compliance with and good-standing in the NFIP including adoption and enforcement of floodplain management requirements (e.g. regulating all new and substantially improved construction in Special Hazard Flood Areas), floodplain identification and mapping, and flood insurance outreach to the community. Further, continue to meet and/or exceed the minimum NFIP standards and criteria through the following NFIP- related continued compliance actions identified below. | | | | Χ | | Residence and business have their own flood insurance. Will inform them of NFIP. Action carried over to the 2018 Action Plan. |

2013 Municipal Action Plan Status - continued

| | • | | | Status | | | |
|----|--|--------------------------|-------------|------------|-----------|--------------|--|
| | Existing Mitigation Action (from 2013 Hazard Mitigation Plan) | No Progress / Unknown | In Progress | Continuous | Completed | Discontinued | Additional Comments |
| 4 | Conduct and facilitate community and public education and outreach for residents and businesses to include, but not be limited to, the following to promote and effect natural hazard risk reduction: - Provide and maintain links to the HMP website, and regularly post notices on the County/municipal homepage(s) referencing the HMP webpages. - Prepare & distribute informational letters to flood vulnerable property owners & neighborhood associations, explaining the availability of mitigation grant funding to mitigate their properties, & instructing them on how they can learn more and implement mitigation. - Use email notification systems & newsletters to better educate the public on flood insurance, the availability of mitigation grant funding, as well as personal and natural hazard risk reduction measures. - Work with neighborhood associations, civic & business groups to disseminate information on flood insurance & the availability of mitigation grant funding. | | Х | | | | Will notify residents of the HMP website and flood insurance through the NFIP program in our newsletter. |
| 5 | Begin the process to adopt higher regulatory standards to manage flood risk (i.e. increased freeboard, cumulative substantial damage/improvements) and sinkhole risk (e.g. carbonate bedrock standards). | | | Х | Χ | | We adopted a floodplain ordinance. Added an X to Completed because ordinance adopted. Action carried over to the 2018 Action Plan. |
| 6 | Determine if a Community Assistance Visit (CAV) or Community Assistance Contact (CAC) is needed, and schedule if needed. | | | | X | | We adopted a floodplain ordinance. Action carried over to the 2018 Action Plan. |
| 7 | Have designated NFIP Floodplain Administrator (FPA) become a Certified Floodplain Manager through the ASFPM, and pursue relevant continuing education training such as FEMA Benefit-Cost Analysis. | | | | X | | Through Barry Isett & Associates. Action carried over to the 2018 Action Plan. |
| 8 | Participate in the Community Rating System (CRS) to further manage flood risk and reduce flood insurance premiums for NFIP policyholders. This shall start with the submission to FEMA-DHS of a Letter of Intent to join CRS, followed by the completion & submission of an application to the program once the community's current compliance with the NFIP is established. | Х | | | | | Will look into the letter of intent to join CRS in the future. |
| 10 | Archive elevation certificates Continue to support the implementation, monitoring, maintenance, and updating of this Plan, as defined in Section 7.0 | | | X | | | We have floodplain maps. Will be updating this plan on an ongoing basis. |

2013 Municipal Action Plan Status - continued

| | | | | Status | | | |
|----|--|--------------------------|-------------|------------|-----------|--------------|--|
| | Existing Mitigation Action (from 2013 Hazard Mitigation Plan) | No Progress / Unknown | In Progress | Continuous | Completed | Discontinued | Additional Comments |
| 11 | Complete the ongoing updates of the Comprehensive Emergency Management Plans | | | Χ | | | Working with our Emergency Management Coordinator. |
| 12 | Create/enhance/ maintain mutual aid agreements with neighboring communities for continuity of operations. | | | Х | | | We work with the City of Easton, Palmer Township and Wilson Borough. |
| 13 | Identify and develop agreements with entities that can provide support with FEMA/PEMA paperwork after disasters; qualified damage assessment personnel – Improve post-disaster capabilities – damage assessment; FEMA/PEMA paperwork compilation, submissions, recordkeeping | | | Х | | | Work with local contractors when we have a declared emergency. |
| 14 | Work with regional agencies (i.e. County and PEMA) to help develop damage assessment capabilities at the local level through such things as training programs, certification of qualified individuals (e.g. code officials, floodplain managers, engineers). | | | X | | | Work with Northampton County, FEMA and our engineers |

Notes:

- 1. Actions not carried through to the 2018 Action Plan are so noted.
- 2. To maintain National Flood Insurance Program (NFIP) compliance, actions related to the NFIP were carried through to the 2018 Action Plan even if identified by the municipality as completed.

2018 Mitigation Action Plan

| | Mitigation Action | Mitigation Technique Category | Hazard(s) Addressed | Priority (H / M / L) | Estimated Cost | Potential Funding | Lead Agency / Department | Implementation Schedule | Applies to New and / or Existing Structures |

| 17 | Provide training and education for first responders to ensure effective emergency care. | Local plans & Regulations | Drug Overdose Crisis | High | Low | Municipal Budget | Municipality | Ongoing | N/A |
| 18 | Purchase and installation of permanent, alternate power source (IE. generator) at numerous critical facility sites within the borough such as the; borough municipal building – serves as our local Emergency Operations Center (EOC) and shelter facility, borough police department building, and other facilities labeled as critical within the borough. | Structure & Infrastructure | All Hazard | High | Medium – High | FEMA Mitigation Grant Programs, Municipal Budget | Municipality with support from Local EM, Public Works | Short-Term | Existing |

Notes:

Estimated Costs:

- Where actual project costs have been reasonable estimated: Low = < \$10,000; Medium = \$10,000 to \$100,000; High = > \$100,000;
- Where actual project costs cannot reasonably be established at this time:
 - **Low** = Possible to fund under existing budget. Project is part of, or can be part of an existing on-going program.
 - **Medium** = Could budget for under existing work plan, but would require a reapportionment of the budget or a budget amendment, or the cost of the project would have to be spread over multiple years.
 - **High** = Would require an increase in revenue via an alternative source (i.e., bonds, grants, fee increases) to implement. Existing funding levels are not adequate to cover the costs of the proposed project.

- Potential Funding (FEMA HMA):BRIC = Building Resilient Infrastructure and Communities
 - **FMA** = Flood Mitigation Assistance Grant Program
 - **HMGP** = Hazard Mitigation Grant Program
 - **HSGP** = Homeland Security Grant Program
 - **EMPG** = Emergency Management Performance Grant

Implementation Schedule:

- **Short Term** = 1 to 5 years
- Long Term = 5 years or greaterDOF = Depending on Funding

Applies to New and/or Existing Structures:

- N/A = Not Applicable
