Municipal Profile

Lehigh Township is a largely rural township located in the northwest corner of Northampton County. It encompasses an area of 29.9 square miles and has an approximate population of 10,774 (2020 Census). The township is bordered by Moore Township to the east, Allen Township to the south, North Whitehall Township (Lehigh County) to the south, Walnutport Borough, Washington Township (Lehigh County), and Slatington Borough (Lehigh County) to the west, and Carbon County to the north.

Lehigh Township is bordered to the west and south by the Lehigh River. The Bertsch Creek flows southwest from near the intersection of PA Routes 248 and 946 to the Lehigh River south of Walnutport. In addition, the Indian Creek flows southward out of the township from the Indian Trail Park in the southern portion of the township. The Hokendauqua Creek enters the township from the east just south of PA Route 248, and then turns south out of the township.

PA Route 145 (Riverview Drive) crosses into Lehigh Township at Treichlers and runs north-south along the Lehigh River until joining PA Route 248 (Lehigh Drive) in the northwest corner of the township. PA Route 248 runs northwest-southwest from there to the southeastern part of the township before entering Moore Township. PA Route 946 (Mountain View Drive) enters the northern part of the township from Moore Township and travels west to end in Walnutport. Other major east-west roads include Timberline Drive in the north, and Dogwood Road that travels southwest-northeast from PA Route 946 east of Danielsville to Cherryville, where it meets Blue Mountain Drive, which runs north-south from Treichlers to Danielsville.

Municipal Participation

1. Identify municipal stakeholders to be involved in the planning process such as, floodplain administrator, public works, emergency management, engineers, planners, etc., and include their specific role in the process.

Alice Rehrig, Manager Role: Hazard Identification, Resolution, Project Coordinator	Scott Fogel, Police Chief, Role: Hazard Identification, Public Awareness
Scott Rehrig, Emergency Management Coordinator Role: Hazard Identification, Community Involvement, Public Awareness	Frank Zamadics, Public Works Director Role: Hazard Identification, Resolution
Elizabeth Amato, Zoning Officer/Floodplain Administrator Role: Ordinance Overview	Richard Hildebrand, Fire Commissioner Role: Public Awareness, Hazard Identification

2. Identify community stakeholders such as; neighborhood groups, religious groups, major employers / businesses, etc., that will be informed and / or involved in the planning process and describe how they will be involved.

Northampton Area School District; Carbon Lehigh Intermediate Unit & Livengood Excavators

3. Describe how the public **will be engaged** in the current planning process (examples, newsletters, social media, etc.), **and how they were engaged** since the 2018 Hazard Mitigation Plan.

Current: Updates on Township Website, Newsletters & Police Department Facebook. Emergency Management Coordinator also attended community events to promote preparedness information has been included on the Township website An Emergency Management Facebook page has been created as a method of communication for information and emergencies.

Past: Same

Compliance with the National Flood Insurance Program (NFIP)

Topic	Identify source of information if different from the one listed.	Additional Comments
1. Staff Resources		
Is the Community Floodplain Administrator (FPA) or NFIP Coordinator certified?	Community FPA	No
Is floodplain management an auxiliary function?	Community FPA	No
Provide an explanation of NFIP administration services (e.g., permit review, GGIS, education or outreach, inspections, engineering capability)	Community FPA	When application for permits in the area of a stream are received, the NFP maps are checked, if close to flood plain, an Engineering Study is required and reviewed by the Township Engineer.
What are the barriers to running an effective NFIP program in the community, if any?	Community FPA	Expenses associated with Emergency Reviews.
2. Compliance History		
Is the community in good standing with the NFIP?	State NFIP Coordinator, FEMA NFIP Specialist, or community records	Yes
Are there any outstanding compliance issues (i.e., current violations)?		No
When was the most recent Community Assistance Visits (CAV) or Community Assistance Contact (CAC)?		CAC when developing Floodplain Ordinance
Is a CAV or CAC scheduled or needed?		No
3. Regulation		
When did the community enter the NFIP?	NFIP Community Status Book	11/15/1974
Are the Flood Insurance Rate Maps (FIRMs) digital or paper? How are residents assisted with mapping?	Community FPA	Paper maps are available for public viewing.
Do floodplain regulations meet or exceed FEMA or State minimum requirements? If so, in what ways?	Community FPA	Meet regulations
Describe the permitting process	Community FPA, State, FEMA NFIP	Application provides engineering study. Township Engineer reviews then permits are issued if appropriate.

Compliance with the National Flood Insurance Program (NFIP) – continued

4. Insurance Summary		
How many NFIP policies are in the community? What is the total premium and coverage?	State NFIP Coordinator or FEMA NFIP Specialist	As of 9/22/2023 – 14 policies & \$11,328 in premiums
How many claims have been paid in the community? What is the total amount of paid claims? How many substantial damage claims have there been?	FEMA NFIP or Insurance Specialist	As of 9/22/2023 – 13 claims & \$125,717.74 paid to claims
How many structures are exposed to flood risk within the community?	Community FPA or GIS Analyst	N/A
Describe any areas of flood risk with limited NFIP policy coverage	Community FPA or FEMA Insurance Specialist	N/A
5. Community Rating System (CRS)		
Does the community participate in CRS?	Community FPA, State, or FEMA NFIP	No
If so, what is the community's CRS Class Ranking?	Flood Insurance Manual (http://www.fema.gov/floodinsurancemanual.gov)	N/A
What categories and activities provide CRS points and how can the Class be improved?		N/A
Does the plan include CRS planning requirements?	Community FPA, FEMA CRS Coordinator, or ISO representative	N/A

Community Assets

Community assets are defined to include anything that is important to the character as well as the function of a community, and can be described in four categories, they are; people, economy, natural environment and built environment. Please identify the community assets and location under each category.

1. People

- ✦ Concentrations of vulnerable populations such as the elderly, physically or mentally disabled, non-English speaking, and the medically or chemically dependent.

Liza's House	Pond View Manor
Hope Springs Lutheran Senior Center	

- ✦ Types of visiting populations where large numbers of people are concentrated such as visitors for special events and students.

Bethany Wesleyan Church	Woodstone Lodge
Lehigh Elementary School	Teddy Bear Day Care
Becky's Drive-in Theater	Lorah's Farm (tractor pulls)

2. Economy

- ✦ Major employers, primary economic sectors such as agriculture and commercial centers where losses would have a severe impact on the community.

Carbon Lehigh Intermediate Unit	Livengood Excavators
Lehigh Township Elementary School	

Community Assets – continued

3. Natural Environment

- ✦ Those areas / features that can provide protective functions that reduce the magnitude of hazard events such as, wetlands or riparian areas, and other environmental features important to protect.

Lehigh River	Indian Creek
Bertsch Creek	Blue Mountain (forest)
Appalachian Trail	

4. Built Environment

- ✦ Existing structures such as, concentrations of buildings that may be more vulnerable to hazards based on location, age, construction type and / or condition of use.

Lehigh Township Historical Society Building

- ✦ Infrastructure systems such as water and wastewater facilities, power utilities, transportation systems, communication systems, energy pipelines and storage.

Bethlehem Water Treatment Plant	Norfolk Southern Railway
Heritage Village – private water system	PPL Transmission line
Buckeye Pipeline	Petroleum Pipeline

Lehigh Township Municipal Authority water system & sewage system

- ✦ High potential loss facilities such as, dams, locations that house hazardous materials, military and / or civilian defense installations.

Bethlehem Water Treatment Plant	Norfolk Southern – hauling of hazardous materials
---------------------------------	---

Community Assets – continued

- ✦ Critical facilities such as, hospitals, medical facilities, police and fires stations, emergency operations centers, shelters, schools and airports / heliports.

Lehigh Township Municipal Building	Lehigh Township Police Department
Lehigh Township Fire Company	Lehigh Township Elementary School
Bethany Wesleyan Church (shelter)	

- ✦ Cultural / historical resources such as, museums, parks, stadiums, etc.

Danielsville, Delps, Bryfogle & Indian Trail Parks	LTAA Complex
Lehigh Township Historical Society Building	Indianland School House

Capability Assessment

Capability		Degree of Capability			Change since the 2018 Hazard Mitigation Plan? If so, how?	Additional Comments
		Limited	Moderate	High		
5. Self – Assessment	Planning and Regulatory		X		Updated Floodplain Ordinance.	
	Administrative and Technical		X			
	Financial	X				
	Education and Outreach		X		Greater community outreach.	

Known or Anticipated Future Development / Redevelopment

Development / Property Name	Type of Development	Number of Structures	Location	Known Hazard Zone	Description / Status
Northwoods	Residential	175	Heritage Lane		Phase I started
Hilltop Center	Mixed Use	500	Cherryville Road – Seminary Property		Starting planning process in spring
Cherryville Partners	Commercial	2	Rt. 248 & Blue Mountain Drive	High volume traffic	Approved – Intersection improvement

Natural & Non-Natural Event History

Type of Event and Date(s)	FEMA Disaster # (if applicable)	Local Damage(s) or Loss(es)
Pennsylvania COVID-19 Pandemic – 1/2020	DR-4506-PA	Emergency Protective measures to combat COVID-19 Pandemic.
Remnants of Hurricane Ida	DR-4618-PA	Assistance to eligible individuals and families affected by this disaster.

2018 Municipal Action Plan Status

Existing Mitigation Action (from 2018 Hazard Mitigation Plan)		Status					Additional Comments
		No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	
1	Continued to utilize Nixle and township website for public information / notification.	X					Applied for FEMA Hazard Mitigation Grant funding in 2019 FY.
2	Upgrade backup power at the Police Station to properly support police and emergency management functions. Include generator costs in Capital Improvement Planning.				X		Generators installed at plants and pump stations Action not carried through to the 2018 Action Plan.
3	Upgrade emergency communications systems.			X			
4	Assess vulnerability of electric substation and, if warranted, secure funding to mitigate.	X					
5	Retrofit structures located in hazard prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for retrofitting based on cost effectiveness versus relocation. Phase 2: Where retrofitting is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability.	X					
6	Purchase, or relocate structures located in hazard- prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for relocation based on cost-effectiveness versus retrofitting. Phase 2: Where relocation is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability.	X					
7	Maintain compliance with and good standing in the NFIP including adoption and enforcement of floodplain management requirements (e.g. regulating all new and substantially improved construction in Special Hazard Flood Areas), floodplain identification and mapping, and flood insurance outreach to the community. Further, continue to meet and/or exceed the minimum NFIP standards and criteria through the following NFIP- related continued compliance actions identified as Initiatives below.			X			Ordinance updated

2018 Municipal Action Plan Status – *continued*

	Existing Mitigation Action (from 2018 Hazard Mitigation Plan)	Status					Additional Comments
		No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	
8	Begin and/or continue the process to adopt higher regulatory standards to manage flood risk (i.e. increased freeboard, cumulative substantial damage/improvements) and sinkhole risk (e.g. carbonate bedrock standards).			X			
9	Determine if a Community Assistance Visit (CAV) or Community Assistance Contact (CAC) is needed, and schedule if needed.			X			
10	Have designated NFIP Floodplain Administrator (FPA) become a Certified Floodplain Manager through the ASFPM and/or pursue relevant continuing education training such as FEMA Benefit Cost Analysis.	X					
11	Participate in the Community Rating System (CRS) to further manage flood risk and reduce flood insurance premiums for NFIP policyholders. This shall start with the submission to FEMA-DHS of a Letter of Intent to join CRS, followed by the completion and submission of an application to the program once the community's current compliance with the NFIP is established.	X					
12	Obtain and archive elevation certificates for NFIP compliance.			X			
13	Continue to support the implementation, monitoring, maintenance, and updating of this Plan, as defined in Section 7.0.			X			
14	Complete the ongoing updates of the Comprehensive Emergency Management Plans.			X			
15	Create/enhance/maintain mutual aid agreements with neighboring communities for continuity of operations.		X				
16	Develop and maintain capabilities to process FEMA/PEMA paperwork after disasters; qualified damage assessment personnel – Improve post-disaster capabilities – damage assessment; FEMA/PEMA paperwork compilation, submissions, record keeping.	X					
17	Work with regional agencies (i.e. County and PEMA) to help develop damage assessment capabilities at the local level through such things as training programs, certification of qualified individuals (e.g. code officials, floodplain managers, engineers).		X				
18	Coordinate with the County Emergency Management Agency and PA Department of Health, which is responsible for setting up points of distribution and providers for immunizations.			X			
19	Devise an employee vaccination and immunization plan to prevent an outbreak within the municipal employee ranks.			X			
20	Devise a municipal continuity of operations plan to keep essential services running in the event that a significant portion of the workforce is affected.			X			

2018 Municipal Action Plan Status – continued

Existing Mitigation Action (from 2018 Hazard Mitigation Plan)		Status					Additional Comments
		No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	
21	Devise a public education and outreach plan regarding disease prevention.			X			
22	Provide education and outreach to residents regarding how to prevent the spread of invasive species, including quarantine procedures.			X			
23	Develop a neighborhood cleanup plan designed to remove discarded tires, trash and other items in which standing water can form.			X			
24	Provide training and education for first responders to ensure effective emergency care.			X			
25	Provide education and outreach, especially in K-12, regarding drug abuse prevention.			X			
26	Purchase & installation of permanent, alternative power source (IE: generator) at the Lehigh Township Police Department headquarters. The Lehigh Township Police Department hosts the townships' Emergency Operations Center (EOC) if even needed during or after a weather / non-weather related incident.			X			
27	Purchase & installation of permanent, alternative power source (IE: generator) at the Lehigh Township Municipal Building. The Lehigh Township Municipal Building houses all pertinent township municipal offices, it also doubles as the local shelter location for township residents during and/or after a weather / non-weather related incident.			X			

Notes:

1. Actions not carried through to the 2023 Action Plan are so noted.
2. To maintain National Flood Insurance Program (NFIP) compliance, actions related to the NFIP were carried through to the 2023 Action Plan even if identified by the municipality as completed.

2023 Mitigation Action Plan

Mitigation Action		Mitigation Action Category	Mitigation Technique Category	Hazard(s) Addressed	Priority (H / M / L)	Estimated Cost	Potential Funding	Lead Agency / Department	Implementation Schedule	Applies to New and / or Existing Structures

Notes:

Estimated Costs:

- Where actual project costs have been reasonable estimated: Low = < \$10,000; Medium = \$10,000 to \$100,000; High = > \$100,000; - Where actual project costs cannot reasonably be established at this time:

Low = Possible to fund under existing budget. Project is part of, or can be part of an existing on-going program.

Medium = Could budget for under existing work plan, but would require a reapportionment of the budget or a budget amendment, or the cost of the project would have to be spread over multiple years.

High = Would require an increase in revenue via an alternative source (i.e., bonds, grants, fee increases) to implement. Existing funding levels are not adequate to cover the costs of the proposed project.

Potential Funding (FEMA HMA):

- **BRIC** = Building Resilient Infrastructure and Communities
- **FMA** = Flood Mitigation Assistance Grant Program
- **HMGP** = Hazard Mitigation Grant Program
- **HSGP** = Homeland Security Grant Program
- **EMPG** = Emergency Management Performance Grant

Implementation Schedule:

- **Short Term** = 1 to 5 years
- **Long Term** = 5 years or greater
- **DOF** = Depending on Funding

Applies to New and/or Existing Structures:

- **N/A** = Not Applicable
