Municipal Profile

Stockertown Borough is located in the central part of Northampton County. It encompasses an area of approximately 1.0 square mile and has a population of 919 (2020 Census). The borough is bordered by Plainfield Township to the north; Forks Township to the east; Tatamy Borough and Palmer Township to the south; and Upper Nazareth Township to the west.

The Bushkill Creek forms most of the borough's western and southern border with Palmer Township. The Little Bushkill Creek runs roughly parallel to the Bushkill Creek in the northwestern part of the borough, and then turns southeast to the middle of the borough, where it flows south to its confluence with the Bushkill Creek. There are a few small ponds along the Little Bushkill Creek, used by the Stockertown Rod & Gun Club.

PA Route 33 runs north-south through the western half of the borough. It interchanges with PA Route 191 (East Lawn Road / Industrial Boulevard). PA Route 191 runs east-west from near the midpoint of the borough's western border and follows Main Street north after crossing PA Route 33. Main Street also travels southeast from the intersection of Industrial Boulevard.

Municipal Participation

1. Identify municipal stakeholders to be involved in the planning process such as, floodplain administrator, public works, emergency management, engineers, planners, etc., and include their specific role in the process.

Alex Henning, Public Works Director
Role: Public Works Director

John Soloe, Police Chief
Role: Police Chief

Amy Richard, Council President
Role: Council President

Keystone Engineers, Borough Engineers
Role: Engineers

2. Identify community stakeholders such as; neighborhood groups, religious groups, major employers / businesses, etc., that will be informed and / or involved in the planning process and describe how they will be involved.

None

3. Describe how the public **will be engaged** in the current planning process (examples, newsletters, social media, etc.), **and how they were engaged** since the 2018 Hazard Mitigation Plan.

Current: Newsletters, Public Meetings, Social Media

Past: Same

Compliance with the National Flood Insurance Program (NFIP)

| Topic | Identify source of information if different from the one listed. | Additional Comments |
|--|--|--|
| 1. Staff Resources | | |
| Is the Community Floodplain Administrator (FPA) or NFIP Coordinator certified? | Community FPA | N/A |
| Is floodplain management an auxiliary function? | Community FPA | Yes |
| Provide an explanation of NFIP administration services (e.g., permit review, GGIS, education or outreach, inspections, engineering capability) | Community FPA | Permit reviews |
| What are the barriers to running an effective NFIP program in the community, if any? | Community FPA | Budget / dollars |
| 2. Compliance History | | |
| Is the community in good standing with the NFIP? | State NFIP Coordinator, FEMA NFIP Specialist, or community records | Yes |
| Are there any outstanding compliance issues (i.e., current violations)? | | No |
| When was the most recent Community Assistance Visits (CAV) or Community Assistance Contact (CAC)? | | Unknown |
| Is a CAV or CAC scheduled or needed? | | No |
| 3. Regulation | | |
| When did the community enter the NFIP? | NFIP Community Status Book | 8/2/1974 |
| Are the Flood Insurance Rate Maps (FIRMs) digital or paper? How are residents assisted with mapping? | Community FPA | Both |
| Do floodplain regulations meet or exceed FEMA or State minimum requirements? If so, in what ways? | Community FPA | Exceed |
| Describe the permitting process | Community FPA, State, FEMA NFIP | Borough submitted, review, issue |
| 4. Insurance Summary | | |
| How many NFIP policies are in the community? What is the total premium and coverage? | State NFIP Coordinator or FEMA NFIP Specialist | As of 9/22/2023 – 1 policies & \$3,309 in premiums |
| How many claims have been paid in the community? What is the total amount of paid claims? How many substantial damage claims have there been? | FEMA NFIP or Insurance Specialist | As of 9/22/2023 – 4 claims & \$118,957.78 paid to claims |
| How many structures are exposed to flood risk within the community? | Community FPA or GIS Analyst | 33% of the Borough |
| Describe any areas of flood risk with limited NFIP policy coverage | Community FPA or FEMA Insurance Specialist | N/A |

Compliance with the National Flood Insurance Program (NFIP) – continued

| 5. Community Rating System (CRS) | | |
|--|---|-----|
| Does the community participate in CRS? | Community FPA, State, or FEMA NFIP | N/A |
| If so, what is the community's CRS Class Ranking? | Flood Insurance Manual (http://www.fema.gov/floodinsurancemanual.gov) | N/A |
| What categories and activities provide CRS points and how can the Class be improved? | | N/A |
| Does the plan include CRS planning requirements? | Community FPA, FEMA CRS Coordinator, or ISO representative | No |

Community Assets

Community assets are defined to include anything that is important to the character as well as the function of a community, and can be described in four categories, they are; people, economy, natural environment and built environment. Please identify the community assets and location under each category.

1. People

- ✦ Concentrations of vulnerable populations such as the elderly, physically or mentally disabled, non-English speaking, and the medically or chemically dependent.
50% of the population
- ✦ Types of visiting populations where large numbers of people are concentrated such as visitors for special events and students.
None

2. Economy

- ✦ Major employers, primary economic sectors such as agriculture and commercial centers where losses would have a severe impact on the community.
None

3. Natural Environment

- ✦ Those areas / features that can provide protective functions that reduce the magnitude of hazard events such as, wetlands or riparian areas, and other environmental features important to protect.

| | |
|----------------|----------------|
| Bushkill Creek | Feeder streams |
| Ponds | |

4. Built Environment

- ✦ Existing structures such as, concentrations of buildings that may be more vulnerable to hazards based on location, age, construction type and / or condition of use.
Wastewater treatment plant | Homes along the creek bank
- ✦ Infrastructure systems such as water and wastewater facilities, power utilities, transportation systems, communication systems, energy pipelines and storage.
Wastewater treatment plant | Maintenance buildings

Community Assets – continued

- ✦ High potential loss facilities such as, dams, locations that house hazardous materials, military and / or civilian defense installations.

Wastewater treatment plant

Borough public works maintenance building & storage

- ✦ Critical facilities such as, hospitals, medical facilities, police and fires stations, emergency operations centers, shelters, schools and airports / heliports.

None

- ✦ Cultural / historical resources such as, museums, parks, stadiums, etc.

None

Capability Assessment

| Capability | ✓ Regulatory ✓ Tools ✓ Programs | Status | | | Department / Agency Responsible | Effect on Hazard Loss Reduction: -Supports -Neutral -Hinders | Change since 2018 Plan? + Positive - Negative | Has the 2018 Plan been integrated into the Regulatory Tool/Program ? If so, how? | How can these capabilities be expanded and improved to reduce risk? | Additional Comments |
|--------------------------|--|----------|-------------------------|-------------------|---------------------------------|---|---|--|---|----------------------------------|
| | | In Place | Date Adopted or Updated | Under Development | | | | | | |
| 1. Planning & Regulatory | Comprehensive Plan | | | | | | | | | |

Known or Anticipated Future Development / Redevelopment

| Development / Property Name | Type of Development | Number of Structures | Location | Known Hazard Zone | Description / Status |
|-----------------------------|---------------------|----------------------|----------|-------------------|----------------------|
| None | | | | | |

Natural & Non-Natural Event History

| Type of Event and Date(s) | FEMA Disaster # (if applicable) | Local Damage(s) or Loss(es) |
|---|---------------------------------|--|
| Pennsylvania COVID-19 Pandemic – 1/2020 | DR-4506-PA | Emergency Protective measures to combat COVID-19 Pandemic. |
| Remnants of Hurricane Ida | DR-4618-PA | Assistance to eligible individuals and families affected by this disaster. |

2018 Municipal Action Plan Status

| | Existing Mitigation Action (from 2018 Hazard Mitigation Plan) | Status | | | | | Additional Comments |
|---|--|--------------------------|-------------|------------|-----------|--------------|---------------------|
| | | No Progress / Unknown | In Progress | Continuous | Completed | Discontinued | |
| 1 | Purchase and installation of an audible siren and community electronic sign to warn residents and provide emergency information. | N/A | | | | | |
| 2 | Retrofit structures located in hazard prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for retrofitting based on cost effectiveness versus relocation. Phase 2: Where retrofitting is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability. | N/A | | | | | |
| 3 | Purchase, or relocate structures located in hazard- prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for relocation based on cost-effectiveness versus retrofitting. Phase 2: Where relocation is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability. | N/A | | | | | |
| 4 | Maintain compliance with and good standing in the NFIP including adoption and enforcement of floodplain management requirements (e.g. regulating all new and substantially improved construction in Special Hazard Flood Areas), floodplain identification and mapping, and flood insurance outreach to the community. Further, continue to meet and/or exceed the minimum NFIP standards and criteria through the following NFIP- related continued compliance actions identified as Initiatives below. | N/A | | | | | |

2018 Municipal Action Plan Status – *continued*

| | Existing Mitigation Action (from 2018 Hazard Mitigation Plan) | Status | | | | | Additional Comments |
|----|--|--------------------------|-------------|------------|-----------|--------------|---------------------|
| | | No Progress / Unknown | In Progress | Continuous | Completed | Discontinued | |
| 5 | Conduct and facilitate community and public education for residents and businesses to include, but not be limited to, the following to promote and effect hazard risk reduction: - Provide and maintain links to the HMP website, and regularly post notices on the County/municipal homepage(s) referencing the HMP webpages. - Prepare and distribute informational letters to flood vulnerable property owners and neighborhood associations, explaining the availability of mitigation grant funding to mitigate their properties, and instructing them on how they can learn more and implement mitigation. - Use email notification systems and newsletters to better educate the public on flood insurance, the availability of mitigation grant funding, and personal natural hazard risk reduction measures. - Work with neighborhood associations, civic and business groups to disseminate information on flood insurance and the availability of mitigation grant funding. | N/A | | | | | |
| 6 | Begin and/or continue the process to adopt higher regulatory standards to manage flood risk (i.e. increased freeboard, cumulative substantial damage/improvements) and sinkhole risk (e.g. carbonate bedrock standards). | N/A | | | | | |
| 7 | Determine if a Community Assistance Visit (CAV) or Community Assistance Contact (CAC) is needed, and schedule if needed. | N/A | | | | | |
| 8 | Have designated NFIP Floodplain Administrator (FPA) become a Certified Floodplain Manager through the ASFPM and/or pursue relevant continuing education training such as FEMA Benefit Cost Analysis. | N/A | | | | | |
| 9 | Participate in the Community Rating System (CRS) to further manage flood risk and reduce flood insurance premiums for NFIP policyholders. This shall start with the submission to FEMA-DHS of a Letter of Intent to join CRS, followed by the completion and submission of an application to the program once the community's current compliance with the NFIP is established. | N/A | | | | | |
| 10 | Obtain and archive elevation certificates for NFIP compliance. | N/A | | | | | |
| 11 | Continue to support the implementation, monitoring, maintenance, and updating of this Plan, as defined in Section 7.0. | N/A | | | | | |
| 12 | Complete the ongoing updates of the Comprehensive Emergency Management Plans. | N/A | | | | | |
| 13 | Create/enhance/maintain mutual aid agreements with neighboring communities for continuity of operations. | N/A | | | | | |

2018 Municipal Action Plan Status – continued

| | Existing Mitigation Action (from 2018 Hazard Mitigation Plan) | Status | | | | | Additional Comments |
|----|--|--------------------------|-------------|------------|-----------|--------------|---------------------|
| | | No Progress / Unknown | In Progress | Continuous | Completed | Discontinued | |
| 14 | Develop and maintain capabilities to process FEMA/PEMA paperwork after disasters; qualified damage assessment personnel – Improve post-disaster capabilities – damage assessment; FEMA/PEMA paperwork compilation, submissions, record keeping. | N/A | | | | | |
| 15 | Work with regional agencies (i.e. County and PEMA) to help develop damage assessment capabilities at the local level through such things as training programs, certification of qualified individuals (e.g. code officials, floodplain managers, engineers). | N/A | | | | | |

Notes:

1. Actions not carried through to the 2023 Action Plan are so noted.
2. To maintain National Flood Insurance Program (NFIP) compliance, actions related to the NFIP were carried through to the 2023 Action Plan even if identified by the municipality as completed.

2024 Mitigation Action Plan

| Mitigation Action | | Mitigation Action Category | Mitigation Technique Category | Hazard(s) Addressed | Priority (H / M / L) | Estimated Cost | Potential Funding | Lead Agency / Department | Implementation Schedule | Applies to New and / or Existing Structures |
|-------------------|---|----------------------------|-------------------------------|---------------------|----------------------|----------------|--|--|-----------------------------------|---|
| 1 | Purchase and installation of an audible siren and community electronic sign to warn residents and provide emergency information. | 19 | Education & Awareness | All Hazards | High | Medium | Municipal Budget; Emergency Management grant programs | Borough EMC | Short-term (depending on funding) | N/A |
| 2 | Retrofit structures located in hazard-prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for retrofitting based on cost-effectiveness versus relocation. Phase 2: Where retrofitting is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability. | 1 | Structure & Infrastructure | Flood | High | High | FEMA Mitigation Grant Programs and local budget (or property owner) for cost share | Municipality (via Municipal Engineer/NFIP Floodplain Administrator) w/ support from PEMA, FEMA | Long-term (depending on funding) | Existing |

Notes:

Estimated Costs:

- Where actual project costs have been reasonable estimated: Low = < \$10,000; Medium = \$10,000 to \$100,000; High = > \$100,000; -

Where actual project costs cannot reasonably be established at this time:

Low = Possible to fund under existing budget. Project is part of, or can be part of an existing on-going program.

Medium = Could budget for under existing work plan, but would require a reapportionment of the budget or a budget amendment, or the cost of the project would have to be spread over multiple years.

High = Would require an increase in revenue via an alternative source (i.e., bonds, grants, fee increases) to implement. Existing funding levels are not adequate to cover the costs of the proposed project.

Potential Funding (FEMA HMA):

- **BRIC** = Building Resilient Infrastructure and Communities
- **FMA** = Flood Mitigation Assistance Grant Program
- **HMGP** = Hazard Mitigation Grant Program
- **HSGP** = Homeland Security Grant Program
- **EMPG** = Emergency Management Performance Grant

Implementation Schedule:

- **Short Term** = 1 to 5 years
- **Long Term** = 5 years or greater
- **DOF** = Depending on Funding

Applies to New and/or Existing Structures:

- **N/A** = Not Applicable
