Municipal Profile

Wind Gap Borough is located in the northern part of Northampton County along the shared border of Monroe County. The borough encompasses an area of 1.4 square miles and has a population of 2,820 (2020 Census). Wind Gap lies within the rural Township of Plainfield, shares its northern border with Monroe County, and is closely bordered to the west by Bushkill Township.

There are no waterways of significance in Wind Gap Borough. The Nazareth Reservoir is located north of the borough in Monroe County.

State Route 512 bisects the borough, travelling north from Bushkill Township to its intersection with Route 33 in the southwestern part of Wind Gap Borough. SR512 continues north through the borough as S. Broadway until veering northeast and becoming N. Lehigh Avenue and Pennsylvania Avenue as it winds through Plainfield Township and towards Pen Argyl Borough. S. Broadway continues north through the borough center as N. Broadway / State Route 115. Route 33 cuts through the southwest corner of Wind Gap Borough and continues north along the western border where it eventually crosses into Monroe County. State Route 106 / Center Street is the boroughs main east-west roadway.

Municipal Participation

1. Identify municipal stakeholders to be involved in the planning process such as, floodplain administrator, public works, emergency management, engineers, planners, etc., and include their specific role in the process.

Louise Firestone, Borough Administrator	Alexander Cortezzo, III, Council President
Role: Primary Point-of-Contact	Role: Council Member
Kyle Reinert, Assistant Chief	Daniel Sinclair
Role: Fire Department	Role: Fire Department
Allen Predmore, Fire Chief	Brian Pysher, Borough Engineer in Training
Role: Fire Department	Role: Engineering, Floodplain

2. Identify community stakeholders such as; neighborhood groups, religious groups, major employers / businesses, etc., that will be informed and / or involved in the planning process and describe how they will be involved.

All community stakeholders are contacted via Borough notices, website, and direct communication to actively participate in the planning process – as needed.

3. Describe how the public **will be engaged** in the current planning process (examples, newsletters, social media, etc.), **and how they were engaged** since the 2018 Hazard Mitigation Plan.

Current: Social Media, i.e., Borough Webpage, Borough Facebook, Bi-annual Newsletter

Past: Same

Compliance with the National Flood Insurance Program (NFIP)

Торіс	Identify source of information if different from the one listed.	Additional Comments		
1. Staff Resources				
Is the Community Floodplain Administrator (FPA) or NFIP Coordinator certified?	Community FPA	Yes		
Is floodplain management an auxiliary function?	Community FPA	Yes		
Provide an explanation of NFIP administration services (e.g., permit review, GGIS, education or outreach, inspections, engineering capability)	Community FPA	Review by Borough Engineer during planning process.		
What are the barriers to running an effective NFIP program in the community, if any?	Community FPA	Staffing		
2. Compliance History				
Is the community in good standing with the NFIP?	State NFIP Coordinator, FEMA NFIP Specialist, or community records	Adopted Floodplain Management Ordinance – 7/14/2014		
Are there any outstanding compliance issues (i.e., current violations)?		No		
When was the most recent Community Assistance Visits (CAV) or Community Assistance Contact (CAC)?				
Is a CAV or CAC scheduled or needed?				
3. Regulation				
When did the community enter the NFIP?	NFIP Community Status Book	7/14/2014 (6/28/1974)		
Are the Flood Insurance Rate Maps (FIRMs) digital or paper? How are residents assisted with mapping?	Community FPA	Paper		
Do floodplain regulations meet or exceed FEMA or State minimum requirements? If so, in what ways?	Community FPA	Meet		
Describe the permitting process	Community FPA, State, FEMA NFIP	N/A		
4. Insurance Summary				
How many NFIP policies are in the community? What is the total premium and coverage?	State NFIP Coordinator or FEMA NFIP Specialist	As of 9/22/2023 – 3 policies & \$3,872 in premiums		
How many claims have been paid in the community? What is the total amount of paid claims? How many substantial damage claims have there been?	FEMA NFIP or Insurance Specialist	As of 9/22/2023 – 4 claims & \$6,407.28 paid to claims		
How many structures are exposed to flood risk within the community?	Community FPA or GIS Analyst	N/A		
Describe any areas of flood risk with limited NFIP policy coverage	Community FPA or FEMA Insurance Specialist	N/A		

Compliance with the National Flood Insurance Program (NFIP) – *continued*

5. Community Rating System (CRS)		
Does the community participate in CRS?	Community FPA, State, or FEMA NFIP	N/A
If so, what is the community's CRS Class Ranking?	Flood Insurance Manual (http://www.fema.gov/floodinsurancemanual.gov)	N/A
What categories and activities provide CRS points and how can the Class be improved?		N/A
Does the plan include CRS planning requirements?	Community FPA, FEMA CRS Coordinator, or ISO representative	N/A

Community Assets

Community assets are defined to include anything that is important to the character as well as the function of a community, and can be described in four categories, they are; people, economy, natural environment and built environment. Please identify the community assets and location under each category.

1. People

+ Concentrations of vulnerable populations such as the elderly, physically or mentally disabled, non-English speaking, and the medically or chemically dependent.

Wind Gap Elderly Apartments	Edgewood Apartments
Wind Gap Manor	Walden III Senior Living Community
Oakwood Apartments	

+ Types of visiting populations where large numbers of people are concentrated such as visitors for special events and students.

Special Olympic Day	Boy Scout Jamboree				
Wind Gap Fire Company Carnival	Wind Gap Area Athletic Association Car Show				

Park Activities, i.e. – Summer Sounds Concerts

2. Economy

 Major employers, primary economic sectors such as agriculture and commercial centers where losses would have a severe impact on the community.

Giant Food Plaza	First Street Plaza
GAF Premium Products	Bangor Cork

3. Natural Environment

+ Those areas / features that can provide protective functions that reduce the magnitude of hazard events such as, wetlands or riparian areas, and other environmental features important to protect.

Wetlands (Borough Park Property) 2

2 quarries

Former Roberti Property streambed/wetland restoration

Community Assets – continued

- 4. Built Environment
 - + Existing structures such as, concentrations of buildings that may be more vulnerable to hazards based on location, age, construction type and / or condition of use.

512 Corridor	Bangor Cork
Colonial Springs Apartment Complex	

+ Infrastructure systems such as water and wastewater facilities, power utilities, transportation systems, communication systems, energy pipelines and storage.

Electric Substation Cell Tower

 High potential loss facilities such as, dams, locations that house hazardous materials, military and / or civilian defense installations.

Kidney Center

+ Critical facilities such as, hospitals, medical facilities, police and fires stations, emergency operations centers, shelters, schools and airports / heliports.

Wind Gap Fire Company Social HallWind Gap Municipal Garage

Wind Gap Municipal Building, Fire Company, Ambulance Corps.

+ Cultural / historical resources such as, museums, parks, stadiums, etc.

Wind Gap Borough Park

2018 Municipal Action Plan Status

				Status			
	Existing Mitigation Action (from 2018 Hazard Mitigation Plan)	No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	Additional Comments
1	West 6th Street Stormwater Improvements – Identify and implement an engineered solution to address stormwater management issues on West 6th Street, about one block south of prior stormwater improvements. Elevation limits gravity drainage in this area. Stormwater flooding in this area affects a high-density residential area, and West 6th Street is a cul-de-sac so flooding can block ingress/egress.	x					
2	Retrofit structures located in hazard-prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for retrofitting based on cost-effectiveness versus relocation. Phase 2: Where retrofitting is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability.			x			
3	 Purchase, or relocate structures located in hazard-prone areas to protect structures from future damage, with repetitive loss and severe repetitive loss properties as priority. Phase 1: Identify appropriate candidates for relocation based on cost-effectiveness versus retrofitting. Phase 2: Where relocation is determined to be a viable option, work with property owners toward implementation of that action based on available funding from FEMA and local match availability. 	x					
4	Maintain compliance with and good standing in the NFIP including adoption and enforcement of floodplain management requirements (e.g. regulating all new and substantially improved construction in Special Hazard Flood Areas), floodplain identification and mapping, and flood insurance outreach to the community. Further, continue to meet and/or exceed the minimum NFIP standards and criteria through the following NFIP-related continued compliance actions identified below.			X			

2018 Municipal Action Plan Status – *continued*

				Status			
	Existing Mitigation Action (from 2018 Hazard Mitigation Plan)	No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	Additional Comments
5	Conduct and facilitate community and public education and outreach for residents and businesses to include, but not be limited to, the following to promote and effect natural hazard risk reduction: - Provide and maintain links to the HMP website, and regularly post notices on the County/municipal homepage(s) referencing the HMP webpages. - Prepare and distribute informational letters to flood vulnerable property owners and neighborhood associations, explaining the availability of mitigation grant funding to mitigate their properties, and instructing them on how they can learn more and implement mitigation. - Use email notification systems and newsletters to better educate the public on flood insurance, the availability of mitigation grant funding, and personal natural hazard risk reduction measures. - Work with neighborhood associations, civic and business groups to disseminate information on flood insurance and the availability of mitigation grant funding.	х					
6	Begin and/or continue the process to adopt higher regulatory standards to manage flood risk (i.e. increased freeboard, cumulative substantial damage/improvements) sinkhole risk (e.g. carbonate bedrock standards).	X					
7	Determine if a Community Assistance Visit (CAV) or Community Assistance Contact (CAC) is needed, and schedule if needed.	Х					
8	Have designated NFIP Floodplain Administrator (FPA) become a Certified Floodplain Manager through the ASFPM and/or pursue relevant continuing education training such as FEMA Benefit Cost Analysis.	X					
9	Participate in the Community Rating System (CRS) to further manage flood risk and reduce flood insurance premiums for NFIP policyholders. This shall start with the submission to FEMA-DHS of a Letter of Intent to join CRS, followed by the completion and submission of an application to the program once the community's current compliance with the NFIP is established.	x					
10	Obtain and archive elevation certificates for NFIP compliance.	Χ					
11	Continue to support the implementation, monitoring, maintenance, and updating of this Plan, as defined in Section 7.0.			Х			
12	Complete the ongoing updates of the Comprehensive Emergency Management Plans.			Х			
13	Create/enhance/maintain mutual aid agreements with neighboring communities for continuity of operations.			Х			

2018 Municipal Action Plan Status – continued

				Status	i		
	Existing Mitigation Action (from 2018 Hazard Mitigation Plan)	No Progress / Unknown	In Progress	Continuous	Completed	Discontinued	Additional Comments
14	Develop and maintain capabilities to process FEMA/PEMA paperwork after disasters; qualified damage assessment personnel – Improve post-disaster capabilities – damage assessment; FEMA/PEMA paperwork compilation, submissions, record keeping.	X					
15	Work with regional agencies (i.e. County and PEMA) to help develop damage assessment	x					
16	Backup generator for Wind Gap Fire Department			Χ			

Notes:

- **1.** Actions not carried through to the 2023 Action Plan are so noted.
- 2. To maintain National Flood Insurance Program (NFIP) compliance, actions related to the NFIP were carried through to the 2023 Action Plan even if identified by the municipality as completed.

2024 Mitigation Action Plan

	Mitigation Action	Mitigation Action Category	Mitigation Technique Category	Hazard(s) Addressed	Priority (H / M / L)	Estimated Cost	Potential Funding	Lead Agency / Department	Implementation Schedule	Applies to New and / or Existing Structures

13	Develop & maintain capabilities to process FEMA/PEMA paperwork after disasters; qualified damage assessment personnel – Improve post disaster capabilities – Damage assessment; FEMA/PEMA paperwork compilation, submissions, record keeping.	12	Structure & Infrastructure	All Hazards	Low	Medium	Municipal Budget	Municipality w/ support from County, PEMA, FEMA	Short-term	N/A

	Mitigation Action	Mitigation Action Category	Mitigation Technique Category	Hazard(s) Addressed	Priority (H / M / L)	Estimated Cost	Potential Funding	Lead Agency / Department	Implementation Schedule	Applies to New and / or Existing Structures
14	Work with regional agencies (i.e. County and PEMA) to help develop damage assessment capabilities at the local level through such things as training programs, certification of qualified individuals (e.g. code officials, floodplain managers, engineers).	13	Structure & Infrastructure	All Hazards	Medium	Medium	Municipal Budget, FEMA HMA grant programs	Municipality w/ support from County, PEMA	Short-, long- term (depending on funding)	N/A
15	Help communities upstream and downstream of the West Side Detention Dam and communities that could be impacted by dam failure (e.g., loss of water for firefighting activities if they rely on a reservoir) to better understand their risk to be better prepared during an emergency.	27	Education & Awareness	Dam Failure, Flood	High	Low	N/A	Municipality	Ongoing	N/A
16	Backup generator for Wind Gap Fire Department.	17	Structure & Infrastructure	All Hazards	High	\$85,000	Federal, State, Local	Municipality EMA	2022	Existing

Notes:

Estimated Costs:

- Where actual project costs have been reasonable estimated: Low = < \$10,000; Medium = \$10,000 to \$100,000; High = > \$100,000; - Where actual project costs cannot reasonably be established at this time:

Low = Possible to fund under existing budget. Project is part of, or can be part of an existing on-going program.

Medium = Could budget for under existing work plan, but would require a reapportionment of the budget or a budget amendment, or the cost of the project would have to be spread over multiple years.

High = Would require an increase in revenue via an alternative source (i.e., bonds, grants, fee increases) to implement. Existing funding levels are not adequate to cover the costs of the proposed project.

Potential Funding (FEMA HMA):

- **BRIC =** Building Resilient Infrastructure and Communities
- **FMA** = Flood Mitigation Assistance Grant Program
- **HMGP** = Hazard Mitigation Grant Program
- **HSGP** = Homeland Security Grant Program
- **EMPG** = Emergency Management Performance Grant

Implementation Schedule:

- Short Term = 1 to 5 years
- Long Term = 5 years or greater
- **DOF** = Depending on Funding

Applies to New and/or Existing Structures:

- **N/A** = Not Applicable
