

## **BVRO: NFPA 1006 Passenger Vehicle Rescue Operations 24**

### **March 19, 22, 24, 29, 31, 2026**

**Course description:**

This course will provide basic, operations-level knowledge and skills as they pertain to common passenger vehicle rescue incidents. Topics will include vehicle anatomy and supplemental restraint systems, vehicle stabilization, limited patient access and management techniques as well as the influence of advanced technology associated with newer vehicles on rescue operations. The course concludes with a review of the processes leading to termination of the vehicle rescue incident and post-incident analysis.

**Prerequisites:** *MUST be at least 16 years of age by the first day of class, completed the PA State Fire Academy/Department of Health NFPA 1006 Passenger Vehicle Rescue Awareness 24 course, possess a current approved first aid certification or current EMS Provider certification and possess current approved CPR certification and possess a Hazardous Materials Operations training or national certification.*

**Instructor:**

Tom Barnowski
