

BVRA: NFPA 1006 Passenger Vehicle Rescue Awareness 24 **March 10, 12 & 15, 2026**

Course description:

This course will provide basic awareness-level knowledge and skills as they pertain to vehicle rescue incidents. Topics presented include Commonwealth and nationally recognized professional standards, qualifications, and Job Performance Requirements (JPR's) for technical rescuers as they pertain to common passenger vehicle rescue. A functional understanding of accident scene size-up, incident command and resource management to enable the student the ability to operate safely at a vehicle accident/rescue scene. Hazard identification and risk assessment skills enable the student to support an Incident Action Plan and effect mitigation procedures towards a successful vehicle rescue operation. Finally, the student will develop a familiarity with the inspection, application, and operation of common passenger vehicle rescue tools and equipment.

Prerequisites: ***MUST be at least 16 years of age by the first day of class, have completed the FEMA's NIMS 100 & 700, an approved HAZMAT Awareness course, and at least four (4) hours of training in a recognized Traffic Incident Management (TIM) course.***

Instructors:

Tom Barnowski
